Bryan Undoubtedly Will Be Made Head Of Wilson Cabinet

Western Democrats Think Commoner Will Be Given Choice of Portfolios

CHICAGO, Nov. 8.—There appears little doubt in western democratic headquarters that William J. Bryan will be tendered practically a choice of any office within the gift of the president, and many professed to believe that he positively would be secretary of state.

Joseph Davies, western manager, has started for New Jersey, where he will report to Mr. Wilson the results of the western campaign. Democratic headquarters here will be closed Friday, save a small office force checking up the organization.

No one was at the Taft headquarters today.

REBELS FIRE ON TRAIN NEAR TERRAZAS DEPOT

American Passengers Take Refuge at Rear Part of Train

CHICAHUA, Nov. 8.—The north bound National Lines passenger train which left here early Monday morning was fired on by a group of rebels near Terrazas station. The engine backed the train a short distance where an escort of 25 government soldiers alighted and commenced to give battle. Five Americans aboard the train found for Terrazas left the train and took refuge at the rear of the last coach only to be driven back again into the cars when a mauler bullet clipped the dirt six feet from where the party stood. The Americans were: James Wilding, Jr., superintendent of the Rio Tinto Copper Company, R. G. Halter, P. Nelson, J. Murray and W. Brockway.

The federalists pursued the rebels a short distance and then returned to the train which was run to Molinar station where the garrison at that place was taken aboard and the train resumed its journey north. As it neared Terrazas again another volley from the rebel position was fired which was returned by the federalists who left the train in hot pursuit, but the rebels succeeded in making good their escape with the loss of one killed and four wounded.

Late in the afternoon a special train made up of eight coaches and containing four hundred federalists left this city for Terrazas, but on their arrival found everything quiet with soldiers in possession of the town. The rebels are said to have numbered 200 under Col. "Kid" Pozas.

BARELY SAVE LIVES.

MOOSE JAW SASK, Nov. 8.—Passengers on the Soo, early today tell of a miraculous escape from instant death of the passengers and the train crew on the Snake river when a rock slide was encountered while the train was rounding a curve. The locomotive, a baggage and express car and one passenger coach were demolished while three coaches were derailed and hung on the brink of a ravine on the bottom of which the river runs. Both the engineer and fireman jumped and escaped serious injury.

TURKS DEMAND ALL SUBJECTS ASSIST IN WAR

Head of Turkish Hierarchy Calls on Moslem Citizens to Emulate Examples of Enemies to Cross in Hand

ASKS PROPHETS TO GO WITH SOLDIERS

Ottoman Newspapers Seek to Have Request for Mediation Overlooked Saying Danger to One and All

CONSTANTINOPLE, Nov. 8.—Sheik Uslam, head of the hierarchy in Turkey, today issued the following appeal for the Holy war in a manifesto addressed to Ulemas Hodjas:

"With a view of exciting and encouraging soldiers the enemies who surround us and their priests, cross in hand, are working in the ranks of the army. It is not fitting our Ulemas should neglect the accomplishment of a similar duty.

"In order that the victory and glory promised us by the Almighty Prophet may be granted without delay to the Ottoman army it is necessary that the venerable Ulemas organize at Jildas as such a Holy war has more obligations if the condition of the Ottoman soldiers shall be strengthened. Ulemas who feel they possess the appetite and strength to participate in this important battle are invited to present themselves immediately to Sheik-Ul-Islam who will send those selected to the army."

Ministry Unstable

There have been rumors for a day or two that the ministry is unstable owing to its request for mediation by the European powers but the newspapers say this situation is given to the war to demand of the army and public opinion that the war must be continued, as common dangers seems united against all parties. This is shown by the perverted outbursts of the newspapers of all political shades urging that the fight shall go to the finish.

An explanation of this newborn animosity may be found in the suggestion made by a high government official that if impossible he will hold the lines at Tchatalka and will make other defenses possible so the enemy cannot reach this city.

WILL ENTER CONSTANTINOPLE

LONDON, Nov. 8.—Bulgaria has no intention of remaining at Constantinople, according to official report from the Bulgarian legation here. The Bulgarian troops, however, will go into the capital, "even had no other circumstances rendered such a course necessary." It is said the action of Nazim Pasha, Turkish commander in chief, in advising the grand vizier of his army was determined to continue the war makes it such the Bulgarian army will be compelled to enter the Ottoman capital. Lasting peace is impossible so long as one vestige of the Turkish army desires to fight, therefore it is necessary to place beyond the question of absolute defeat of the Turkish army, and to prove this the Bulgarians must enter the Ottoman capital.

CANVASS SOON TO BE MADE.

The Yale team did not play last Saturday on account of the death in New York of the right guard as practice for several days had been suspended. There is some apprehension on the part of Eli followers that the team may have been set back in development.

MUCH INTEREST IN GAME.

SAN FRANCISCO, Nov. 8.—California and Stanford universities will contest tomorrow on Berkeley field for the Rugby supremacy of 1912. Not since Rugby was introduced into California has the interest manifested in an intercollegiate game been so extreme as prevails concerning tomorrow's game. Tonight the indications are that fully 25,000 will witness the contest.

Montenegrans With But Scanty Equipment Prove Superior to Well Armed Ottomans

At the top, wounded Montenegrans being taken to the hospital at Podgoritz; bottom, Turkish prisoners lined up outside the Montenegrin Military Headquarters at Podgoritz.

A handful of Montenegrin soldiers, scantily equipped, have accomplished wonders in the war with Turkey. In practically every engagement they have beaten the Moslems, who are much better armed, and have taken many Turkish prisoners.

The Montenegrins have almost no hospital equipment. One surgeon must do the work of half a dozen, and very few trained nurses are in the camps. Because of the lack of hospital facilities, hundreds of Montenegrins will die who might otherwise be saved.

MEXICO EXPELS HEARST WRITERS

Correspondent and Engineer at Chihuahua, Expelled from Madero's Country as Undesirable

INVESTIGATING EVENT

CHIHUAHUA, Nov. 8.—H. F. Dunn, correspondent for the Hearst papers in Mexico, and C. F. Z. Caracristi, have been expelled from this country on the grounds that they were undesirable aliens. The expulsion was carried out Tuesday evening by the federal secret police under the orders of the department of gubernacion at the instruction of the department of foreign relations.

Men Expelled

Neither department was willing to make any concrete statement yesterday but it was admitted that the men had been expelled. The minister of gubernacion said that he had only executed the instructions which had been given him but that he understood that Dunn had been guilty of sending out false news to his papers and that Caracristi had been expelled for other reasons of which the minister had not been informed.

Dunn Old Hearst Man

Dunn had been connected with the Hearst papers for several years and had returned to Mexico only a few weeks ago after a short absence in New York. Caracristi is an engineer who has done considerable geological work for the Italian and Russian governments and has made geological maps of the greater part of Central America. He had also done some work in Mexico and has mining interests in Chihuahua.

Investigating Operation

Montgomery Schuyler, American charge, stated yesterday that he was investigating at the request of Mrs. Dunn the circumstances attending the deportation of Dunn, but that he had heard of the deportation of Caracristi only from private sources and had not looked into the affair. Whether any action would be taken by the American government could not be stated by the charge.

Neither man was permitted to communicate with his friends or family after being arrested and no positive knowledge of what had become of them was available for twenty-four hours after they were apprehended.

MEXICAN CATTLE IS IMPORTED INTO U. S.

Mexican cattle are being moved to the border in large numbers but it is necessary to move them overland and therefore they require a greater length of time to make the trip than would be needed if the railroads were operating.

John T. Cameron arrived in Columbus, N. M., Wednesday morning with 2348 head from the Pearson district. The duty paid amounted to \$8632. These are Mormon cattle of good breed and it was while rounding them up that Cameron was held by the rebels and forced to pay a ransom of \$5000 gold.

The Pitman Cattle company will receive 200 head of Mexican cattle from the ranch of Juan Ochoa on Thursday. These cattle were driven overland from Mr. Ochoa's ranch at Samsalyn and will be received in El Paso.

Boone Bros. are driving 400 head up from Pearson, 150 miles to Columbus, N. M. There they will be delivered to the Pitman Cattle company.

C. E. Wiswell, manager of the Greene Cattle company at Cananea, is in El Paso. He says that no cattle are being shipped by his company at the present time and there are no reports of thefts by the rebels.

Dr. J. C. Reid, of the bureau of animal industry, is at Columbus, N. M. Dr. H. M. Hart is at Nogales, Ariz. and L. J. Proper is in Douglas, Arizona. All are supervising the importation of cattle.

On Nov. 11, Wm. Benton will import 500 head of his own cattle at Hachita, N. M. He has about 7000 head in the Galeana district and is moving those into the United States in small droves.

STATE ENGINEER ARRIVES IN CITY

Highway Head of Arizona Is Here to Confer with County Surveyor McNeish

CONFERENCE TODAY

Coming to Cochise county for the purpose of conferring with the Cochise county officials in connection with state highway work now about ready to begin here Jas. A. Parker, assistant state engineer, arrived in Bisbee yesterday afternoon.

Mr. Parker arrived yesterday morning from Phoenix and being joined by County Surveyor J. S. McNeish, the two proceeded to Douglas, returning here in an auto in the evening, coming over the state highway.

Mr. Parker stated last night that while the road between Douglas and Bisbee is now good that it would require considerable work to prevent it being washed away or badly damaged by floods during the rainy season.

Conference To Be Held

It is the purpose of Mr. Parker to arrange for a meeting with the board of supervisors of this county during the next few days when Engineer Lamar Cobb would be here for a conference with the board and county surveyor concerning the work first to be undertaken here.

At this meeting the question of the permanent location of the state highway through Cochise county will be up for discussion and determination. While there has been a tentative agreement on the route to be followed up to the present time no absolute and final agreement has been reached.

Route Through Bisbee

The route expected to be filed is a continuation of the Douglas road through Bisbee, up Tombstone canyon over the divide and on to Tombstone and thence from the county seat to Fairbanks and on west to intersect with the Pima county link of the state road. Fifteen miles of the road in Pima county was built last year.

Mr. Parker stated last night that money for starting work on the state highways would soon be available, as tax collections were now coming in and that it was desired to start work as soon as possible.

UNCLE SAM TO SEND CRUISERS AGAINST TURKS

United States Orders Tennessee and Montana to Proceed at Once Into the Turkish Waters.

REVENUE CUTTER IS ON WAY TO COUNTRY

Warships Carry Big Complement of Bluejackets and Six Months Supplies Each and Stock for Relief

WASHINGTON, Nov. 8.—While active preparation is being made to put the armored cruisers Tennessee and Montana started toward Turkish waters within forty eight hours to protect American citizens, the revenue cutter Unalga is now at Port Said and probably will be turned back from its cruise and ordered to rush to the Turkish coast where, after three and a half days sail she could arrive a full fortnight ahead of the big cruisers.

Acting Secretary of State Wilson tonight is considering the advisability of using the Unalga and if he makes the request she will sail tomorrow. The Unalga is a fine craft and commanded by Captain R. O. Crisp. She carries a crew of seventy men and could furnish refuge for five hundred or more Americans.

Plenty of U. S. Men to Go.

The Tennessee, the flagship of rear Admiral Knight who will command the expedition and the Montana each will carry several hundred sailors and a company of marines. A special train is now taking 400 bluejackets from the Norfolk navy yard to fill out the ship's crews.

Plenty of Supplies

Captain J. A. Field will command the Tennessee while Captain W. B. Fletcher will command the Montana. Both vessels always carry six months of supplies and with stock they carry their larders could be increased and they could feed a vast number should famine be in the train of the disaster which now threatens the Americans in the Orient. Save for the little gunboat Scorpion the station ship at Constantinople these two cruisers will be the first of the American naval vessels to pass through the Dardanelles since the old Hartford of civil war fame was allowed to anchor in front of Constantinople by special decree of the Sultan.

MEDIATION DELAYED

CONSTANTINOPLE, Nov. 8.—There is no development in direction of mediation by the powers in the war with the Balkans, according to information received here. France, Great Britain and Russia are endeavoring to obtain an adherence of the triple alliance of Germany, Austria and Italy to the policy of "disinterestedness" before undertaking mediation, but their success is doubtful. It appears that France, Russia and Great Britain, side with the Balkan allies while Germany, Austria and Italy lean toward Turkey. The upshot of this situation is awaited here with concern.

TURKS OPTIMISTIC

HAEDEMEKI, Nov. 8.—Nov. 6 Via wireless staff of the Turkish army at Tcherekesskui.

At headquarters here of the Ottoman, the troops occupy Viza at south Timovo, and have advanced as far as Kavaky. The Bulgarians have not occupied Tchortu. Reconnaissance in that direction resulted in finding thousands of Bulgarians dead. Tcherekesskui is in wireless communication with Adrianople, where the situation is declared favorable and it is asserted the city may hold out several months longer.

Fresh troops are reaching Tchortu from Makirkeuk and reinforcements were landed today at Mida on the Black Sea and will continue on to join the right wing of the Turkish army. The soldiers from Constantinople have proved to be excellent, fighting with vigor.

BULGARIANS ADVANCING.

SOFIA, Nov. 8.—It is reported the Bulgarian army reached Derias, at the northern end of the Tchatalja line, about two and one half miles from the Black Sea and that Adrianople is still holding out. It is believed bombardment has been suspended temporarily.

MAY GO TO CINCINNATI.

CHICAGO, Nov. 8.—Joe Tinker, shortstop of the Chicago Nationals may yet go to Cincinnati as manager. According to the desire of Garry Herrman, owner of the Cincinnati team charter, with Murphy as president the Chicago club denied negotiations for Tinker is a trade off.
